CRYOVAC[®]

Food Packaging Systems

Have a bone to pick with single rib in-the-bag packaging that works harder than it needs to? Introducing Cryovac[®] Ultra Shrink TBG. It offers the overall abuse resistance you expect from a tough Cryovac barrier bag, but with bone-blocking clear patch material right where you need it – and none where you don't. Combined with ultra tight shrink that's 75-80% better than before, and you have the ultimate mix of prudent and powerful. So trust your fresh, bone-in beef and pork to Cryovac Ultra Shrink TBG. Now, targeted breakthrough resistance is always in the bag.

**EXACTLY THE PATCH YOU NEED,
EXACTLY WHERE YOU NEED IT.**

ULTRA SHRINK TBG BAG

Features

- Improved bag and patch combo for higher abuse applications
- Extra tight shrink representing a 75-80% free shrink improvement
- No excess packaging means better appearance and reduced purge
- Better patch cover protection on the factory seal
- Available for many smoked and fresh bone-in applications (Back ribs, spare ribs and St. Louis-style ribs, bone-in smoked hams, etc.)
- Printing capabilities up to eight colors
- Available in bag widths 6-10 inches and lengths up to 26 inches
- Compatible with Cryovac® rotary chamber vacuum systems

Benefits

- Lower packaging costs
- Reduced online leaker rates
- Tighter shrink virtually eliminates purge
- Improved retail appearance

And that's not all.

When you choose a Cryovac® packaging system, you get more than proven and consistent automated loading and packaging equipment. You get more than state-of-the-art packaging materials like case ready and active packaging technologies, Simple Steps® easy meal prep products, and Flavour Mark™ shelf-stable pouches. And more than scientists, engineers, and applications specialists who create solutions that fit your needs, or technical service specialists to help keep you up and running.

No, a Cryovac packaging system is much more than a system. It's a total solution. And it's a committed partner.
